

Course Registration Process

In the registration system, its possible to save courses prior to the booking window (details on page 7) and register to them once the booking window opens. Full details in the following manual.

Details regarding possible error messages during registration process are on page 9

Dictionary:

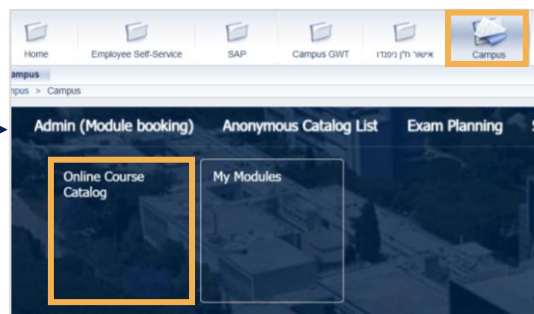

- **Event** – a meeting with a day and time (e.g., a lecture on Monday from 9am to 12pm)
- **Event package** – multiple events for which the student signs up at once (e.g., event package 11 consists of a lecture on Tuesday at 8am and a practice on Wednesday at 2pm. Students who book event package 11 will be registered for both meetings)
- **Items** – any component that makes up the schedule and can be noted (module, event, event package and exam)

Online Course Catalog

Entering catalog

In the student portal click on the tab **Campus** and then on **Online Course Catalog**.

Navigation bar:

1 Select the desired semester. To change semester, click on 

Search methods (steps 2 & 3)

To conduct a search, click on , the following options appear →

After selection on of the options, more filters will be added accordingly.

2 Using the search option , you can enter the module details page by clicking the module name. When searching using module id **Notice!**: the number **0** was added to the module id after 3 digits (e.g., before – 123456 after – 1230456).

Search criteria can be saved by clicking  at the bottom of the screen.

3 To view modules by department, click on .

To view modules associated to my program/s of study, click on .

4 If there is an item that you would like to save to view/book later, you can save by clicking

the pin  next to the wanted item. To un-pin the item click on  next to the item.

To view all the saved items, click the tab .

5 Click the tab  to view saved and booked items in a calendar display.

Recommended Schedule

Recommended schedule is a tool that assists in scheduling courses by semester

1

1

Click on **Search** and select the search option  **Modules**

The screenshot shows the search interface with the following elements:

- 1**: Search bar with 'Search' button.
- 2**: Filter sidebar on the left with 'My studies' checked.
- 3**: Filter dropdown for '2022 Computer Eng.(Electrical)'.
- 4**: Filter dropdown for '3 Semester'.

Module Title	Academic Level	Category	Department	Credit	Note
Combinatorics for Cs	Undergraduate	Course	Faculty of Computer Science	3	
Complex Functions a	Undergraduate	Lecture	Faculty of Mathematics	2.5	
Data Structures 1	Undergraduate	Lecture	Faculty of Computer Science	3	
Digital Systems and Computer Structure	Undergraduate	Course	Electrical & Computer Engineering	5	
Discrete Mathematics Ee	Undergraduate	Course	Electrical & Computer Engineering	3	

2

To customize module list according to your program of study mark in **My Studies**

3

Select the wanted year's catalog

4

To view module list by recommended semester, select the wanted semester

Calendar

Search ▾ Departments Overview My studies Noted Items **Calendar** Winter Semester 2023 ▾

In the calendar the noted and booked items are displayed. **Notice!** Only items with a date and time (event package, events and exams) will be displayed – modules without at least one event package will not be shown. The calendar can be used as a planning tool for the following semester. To view the calendar, click on **Calendar**.

- 1 The display can be changed by clicking **Month** **Week** **Day**
- 2 To view the legend, click on
- 3 In settings items can be filtered by status and the calendar can be exported to OUTLOOK
- 4 Overlapping events can be viewed by clicking on **Overlaps**
- 5 Click on **Edit** to remove saved items
- 6 Click an event to view further details about the event such as room, lecturer etc.
Notice! Check the exam's assigned room three days prior to the exam

Course registration

Notice! Check the booking windows prior to booking a module.

To book a module, you must first save it in **Noted Items** (see page 2 step 4).

Search ▾ Departments Overview My studies **Noted Items** Calendar Winter Semester 2023 ▾

Click the tab **Noted Items**

Clear noted items list Search for modules, event package...

Module	Event packages/examinations
Winter Semester 2023	
ADVANCED METHODS FOR CANCER THERAPY SM-03380003	
Advanced Organic Physical Chemistry Laboratory SM-01260902	REQUESTED

1 To book a module click on in the row of the desired module

If you are registered to more than one program of study, the following dialogue will appear:

Select context

Further information is required to process your request. Please select the degree programme.

Program of study:

PHD IN BIOLOGY ▾

Confirm Cancel

Select the relevant program of study by clicking and then click on

Process continues in following page

Course registration

2 Clicking on  the following pop-up will appear:

Event	Event Type	Persons	Schedule	Room
LAB ANATOMY A (LB-11)	Laboratory		We 17:00-20:00	027-0006
LEC ANATOMY A (L-10)	Lecture	ALEXNDER KISHONY	Mo 08:30-11:30, We 14:30-16:30	027-0011

3 In this window, select the event package you would like to book using .

To view event details included in the package click on .

After selecting the desired event package, click on .

4 A confirmation will be received:

Confirmation

Request for ANATOMY A (Winter Semester 2023) was successful.
You can find an overview of booked and requested modules in the app "My modules".

Close

5 The status **Conditional Registration/Requested** will be added to the module. **Notice!** This status is not final. Check booking status the following day in **My Modules** (details next page)

Undergraduate statuses:

- **Conditional Registration** – booking awaiting approval

Graduate statuses:
